**ORGILL**  
Relief of Maximum Floor Area and Maximum Building Height

Applicant/Owner J.Orgill attended the meeting.

The Staff Planning Report was presented by Jaspreet Sidhu.

The Applicant questioned why the original application of 2800 sq. ft. was no longer being considered and why the Committee was deciding on 1950 sq. ft. today. Jaspreet explained that further to previous discussion with the Applicant on February 24<sup>th</sup>, that the 2800 sq. ft. would not satisfy the four tests for a minor variance and that analysis was performed on 1950 sq. ft. for the accessory structure which would satisfy the Township. The Applicant asked if he deferred until the next Committee of Adjustment meeting, if the 2800 sq. ft. accessory building could be decided on by the Committee, and if not passed, if the Committee could decide on 1950 sq. ft. Aimee Powell, Manager of Planning and Development, confirmed that the Applicant would have to defer again. Aimee Powell informed the Applicant that the decision of the Committee is appealable. Further, it is Planning Staffs job to evaluate the application before us and let the Committee know if it meets the four tests of minor variance which 2800 sq. ft. did not. Aimee Powell informed the Applicant that they would have to seek a Zoning By-law Amendment if they wanted to have the request for a 2800 sq.ft. Accessory Building be considered any further, noting that Council is the approval authority for a Zoning By-law Amendment and that process could take upwards of 6-9 months. The Applicant decided to move forward with the Committee voting on 1950 sq. ft.

Other Department Comments: No comments were heard from other departments.

Committee Members: All Committee Members agreed and informed the Applicant that they would need to vote on the 1950 sq. ft. today or have it deferred as that was the report they had in front of them today.

No Audience questions were heard.

**The Committee considered all comments received and weighed all evidence available, and voted to APPROVE the minor variance application for relief of maximum floor area from 1001 sq. ft. to 1950 sq. ft.**
